

Identify the following trends and complete each sentence:

Amount of oil produced in Canada

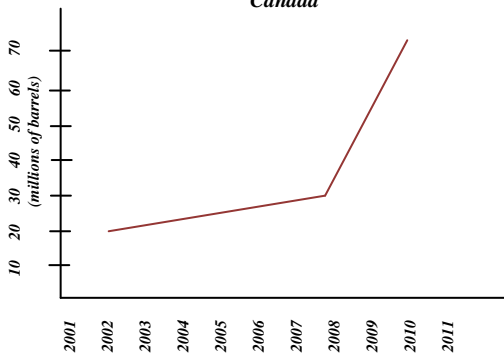

Between \_\_\_\_\_ and 2004, the amount of oil produced in Canada \_\_\_\_\_ sharply to a \_\_\_\_\_ of \_\_\_\_\_ million \_\_\_\_\_, and then from 2006 to \_\_\_\_\_, it \_\_\_\_\_ the same at approximately \_\_\_\_\_ million.

Amount of oil produced in Canada

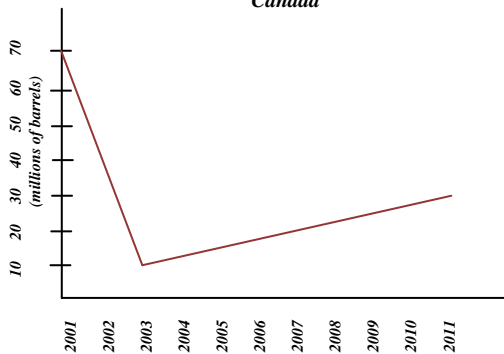

From \_\_\_\_\_ to 2005, the number of \_\_\_\_\_ \_\_\_\_\_ from around \_\_\_\_\_ in 2001 to about 60 \_\_\_\_\_ in \_\_\_\_\_. Then, \_\_\_\_\_ 2005 and \_\_\_\_\_, there \_\_\_\_\_ a \_\_\_\_\_ drop to approximately \_\_\_\_\_ million.

Amount of oil produced in Canada

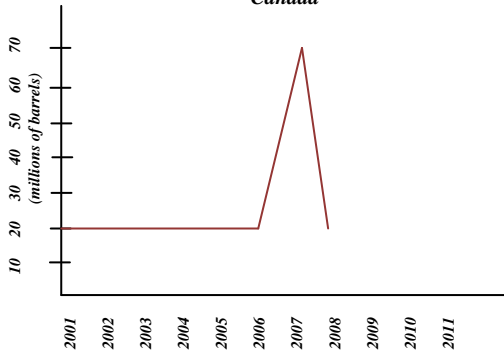

In \_\_\_\_\_, the amount of \_\_\_\_\_ stood at 20 \_\_\_\_\_ barrels, after which it \_\_\_\_\_ slightly to around \_\_\_\_\_ million in \_\_\_\_\_. Between 2008 and \_\_\_\_\_, \_\_\_\_\_ was a \_\_\_\_\_ increase to approximately \_\_\_\_\_ million barrels.

Amount of oil produced in Canada

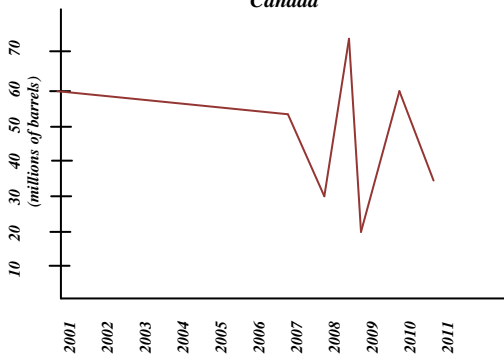

From \_\_\_\_\_ to 2003, the \_\_\_\_\_ of barrels \_\_\_\_\_ sharply from \_\_\_\_\_ million to around \_\_\_\_\_ million. Next, the number \_\_\_\_\_ steadily to about \_\_\_\_\_ million between 2003 \_\_\_\_\_ \_\_\_\_\_.

Amount of oil produced in Canada

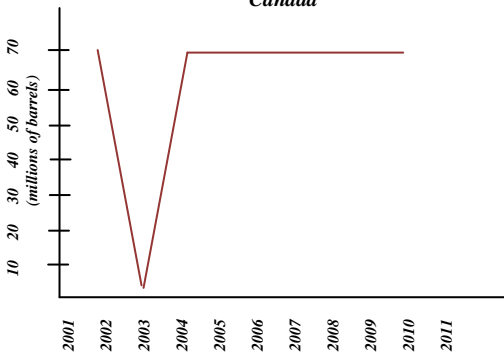

In \_\_\_\_\_, the \_\_\_\_\_ of barrels \_\_\_\_\_ at \_\_\_\_\_ million, and then it remained \_\_\_\_\_ until \_\_\_\_\_. Following that, \_\_\_\_\_ number \_\_\_\_\_ at around 70 million in \_\_\_\_\_.

Amount of oil produced in Canada

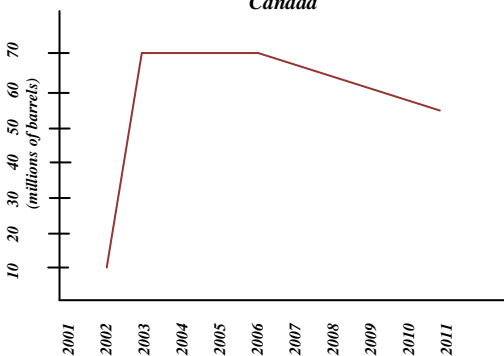

Between \_\_\_\_ and 2007, there \_\_\_\_ a \_\_\_\_\_ decrease from \_\_\_\_ million \_\_\_\_\_ to around \_\_\_\_\_ million. Then, \_\_\_\_\_ 2007 to 2011 \_\_\_\_\_ was a \_\_\_\_\_ from around \_\_\_\_ million to about \_\_\_\_\_ million.

Amount of oil produced in Canada

During \_\_\_\_\_ there \_\_\_\_\_ a \_\_\_\_\_ decrease to approximately \_\_\_\_\_ million barrels. However, \_\_\_\_\_ the following \_\_\_\_\_, it \_\_\_\_\_ rapidly back to \_\_\_\_\_ million, after which the \_\_\_\_\_ the same until \_\_\_\_\_.

Amount of oil produced in Canada

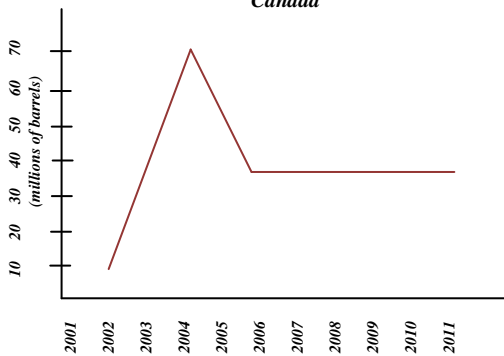

\_\_\_\_\_ 2002, there \_\_\_\_\_ a \_\_\_\_\_ increase to a \_\_\_\_\_ at 70 \_\_\_\_\_ barrels. Next, it \_\_\_\_\_ moderately to around \_\_\_\_\_ million between 2006 \_\_\_\_\_.

See below for answers

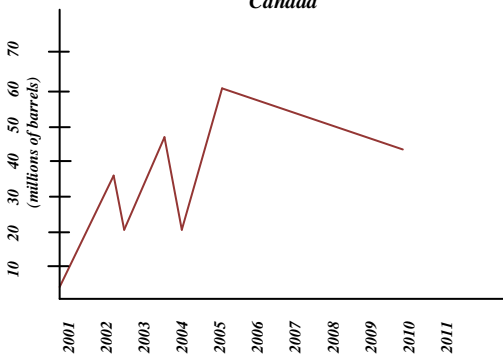

**Answers:** Identify the following trends and complete each sentence:

Amount of oil produced in Canada

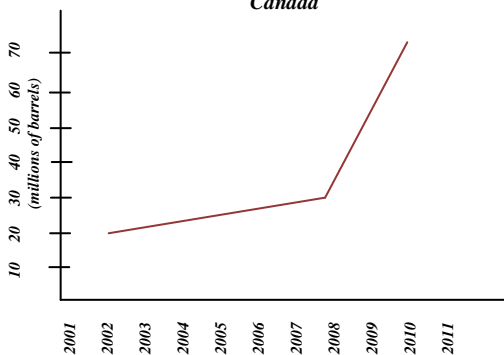

Between **2002** and 2004, the amount of oil produced in Canada **rose** sharply to a **peak** of **70** million **barrels**, and then from 2006 to **2011**, it **remained** the same at approximately **38** million.

Amount of oil produced in Canada

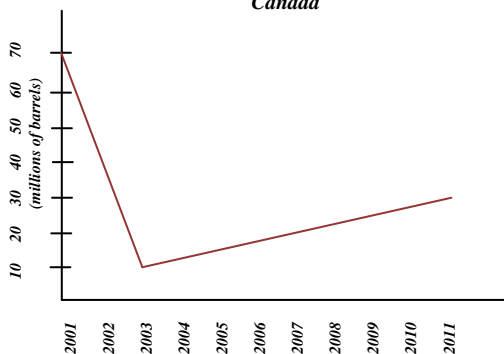

From **2001** to 2005, the number of **barrels** **fluctuated** from around **5 million** in 2001 to about **60 million** in **2005**. Then, **between** 2005 and **2010**, there **was** a **steady** drop to approximately **45** million.

Amount of oil produced in Canada

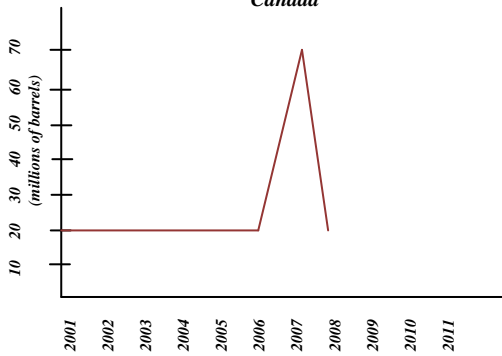

In **2002**, the amount of **oil** stood at **20 million** barrels, after which it **increased** slightly to around **27 million** in **2008**. Between 2008 and **2010**, there **was** a **sharp** increase to approximately **75** million barrels.

Amount of oil produced in Canada

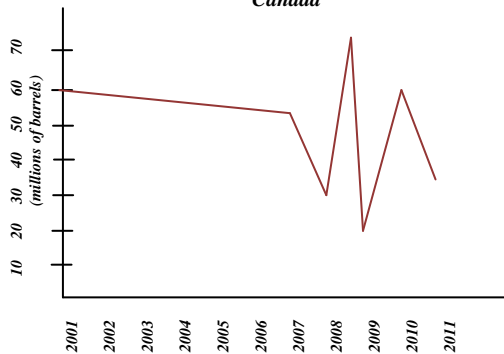

From **2001** to 2003, the **number** of barrels **dropped** sharply from **70** million to around **10** million. Next, the number **went up** steadily to about **30** million between 2003 **and** **2011**.

Amount of oil produced in Canada

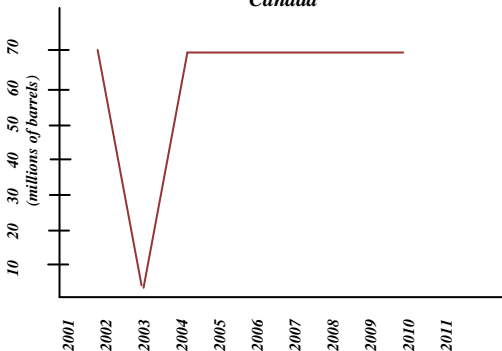

In 2001, the number of barrels stood at 20 million, and then it remained the same until 2006. Following that, the number peaked at around 70 million in 2007.

Amount of oil produced in Canada

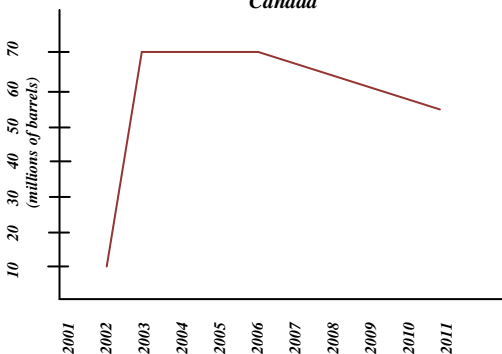

Between 2001 and 2007, there was a gradual decrease from 60 million barrels to around 55 million. Then, from 2007 to 2011, there was a fluctuation from around 55 million to about 35 million.

Amount of oil produced in Canada

During 2003 there was a dramatic decrease to approximately 10 million barrels. However, in the following year, it rose rapidly back to 70 million, after which the number remained the same until 2010.

Amount of oil produced in Canada
