# Line Graphs (and bar charts)

Section: \_\_\_\_\_

Teacher: \_\_\_\_\_

# BAR CHART/ LINE GRAPH

The line graph and bar chart below **both show the same data**; for costs of three utilities over a 20 year period. Look at them carefully and then look at the report on the next page.

## Analysing a report

### 1) Gapfill:

**Look at the line graph or bar chart on the previous page. Use information from the page to complete the gaps in this report.**

### 2) Paragraph organisation

The bar chart shows the average cost per month of \_\_\_\_\_, \_\_\_\_\_ and cable television in Al Ain from 1980 to 2000 in UAE Dhs. As an overall trend, the cost of both \_\_\_\_\_ and \_\_\_\_\_ rose, while the cost of \_\_\_\_\_ fell over the 20 year period.

1. \_\_\_\_\_
2. \_\_\_\_\_
3. \_\_\_\_\_ / \_\_\_\_\_
4. \_\_\_\_\_

Looking at the average monthly cost of \_\_\_\_\_, it is clear to see that it increased over the 20 years. In \_\_\_\_\_, it stood at about 70 Dhs. Then, from 1980 to \_\_\_\_\_ it increased slightly to 80 Dhs. From 1985 to \_\_\_\_\_ the cost of electricity fell moderately to approximately \_\_\_\_\_ Dhs, which was the lowest figure in the 20 years. After that, it rose dramatically to just under \_\_\_\_\_ Dhs in 2000.

2. \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Similarly, the cost of \_\_\_\_\_ went up during the same 20 years. It stood at just over \_\_\_\_\_ Dhs in 1980. Following this, it increased steadily to approximately \_\_\_\_\_ Dhs in 1990. Between 1990 and \_\_\_\_\_ the average monthly cost of cable television remained constant. Finally, there was a moderate rise in costs to slightly over \_\_\_\_\_ Dhs in 2000, which was the highest in the 20 years.

\_\_\_\_\_
2. \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Unlike the cost of \_\_\_\_\_ and \_\_\_\_\_, there was an overall decrease in the cost of \_\_\_\_\_. It started at 20 Dhs in \_\_\_\_\_, after which it rose steadily to just over \_\_\_\_\_ Dhs in 1985. From \_\_\_\_\_ to 1995 the monthly cost of water fluctuated up to a peak of slightly under \_\_\_\_\_ Dhs. Finally, in \_\_\_\_\_, there was a moderate decrease in the cost of water to just under 20 Dhs, which was the lowest figure in the 20 years.

# VOCABULARY TO DESCRIBE TRENDS

Trends are **changes or movements over time**. These changes are normally expressed in numeric items, for example, *percentage, weight, or number*. There are **three** basic trends:

For each trend there are a number of verbs and nouns to express the movement. We can use a **verb of change**, for example:

Population levels **fell**.

or we can use a **related noun**, for example:

There was **a fall** in population.

**Match the graphic with the vocabulary below. Draw it into the box next to the vocab:**

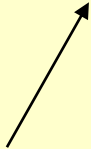

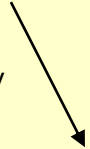

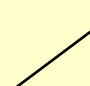

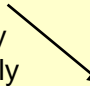

Direction	Verbs of Change		Related Nouns
	Past Tense	Future Tense (IELTS)	
	<ul style="list-style-type: none"> <li>rose to</li> <li>increased to</li> <li>went up to</li> <li>climbed to</li> </ul>	<ul style="list-style-type: none"> <li>will rise to</li> <li>will increase to</li> <li>will go up to</li> <li>will climb to</li> </ul>	<ul style="list-style-type: none"> <li>a rise</li> <li>an increase</li> <li>an upward trend</li> <li>a climb</li> </ul>
	<ul style="list-style-type: none"> <li>fell to</li> <li>declined to</li> <li>decreased to</li> <li>dropped</li> <li>went down to</li> </ul>	<ul style="list-style-type: none"> <li>will fall to</li> <li>will decline to</li> <li>will decrease to</li> <li>will drop to</li> <li>will go down to</li> </ul>	<ul style="list-style-type: none"> <li>a fall</li> <li>a decline</li> <li>a decrease</li> <li>a drop</li> <li>a reduction</li> </ul>
	<ul style="list-style-type: none"> <li>leveled out at</li> <li>did not change</li> <li>remained steady at</li> <li>stayed constant at</li> </ul>	<ul style="list-style-type: none"> <li>will level out at</li> <li>will not change</li> <li>will remain steady at</li> <li>will stay constant at</li> </ul>	<ul style="list-style-type: none"> <li>a leveling out</li> <li>no change</li> </ul>
	<ul style="list-style-type: none"> <li>fluctuated</li> </ul>	<ul style="list-style-type: none"> <li>will fluctuate</li> </ul>	<ul style="list-style-type: none"> <li>a fluctuation</li> </ul>
	<ul style="list-style-type: none"> <li>peaked at</li> </ul>	<ul style="list-style-type: none"> <li>will peak at</li> </ul>	<ul style="list-style-type: none"> <li>a peak</li> </ul>
	<ul style="list-style-type: none"> <li>plateaued at</li> </ul>	<ul style="list-style-type: none"> <li>will plateau at</li> </ul>	<ul style="list-style-type: none"> <li>a plateau</li> </ul>
	<ul style="list-style-type: none"> <li>stood at</li> <li>(began at...)</li> </ul>	<ul style="list-style-type: none"> <li>will stand at</li> </ul>	

# USING ADVERBS TO EXPLAIN VERBS OF CHANGE

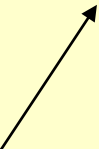

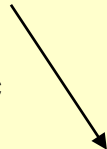

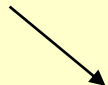

We use **ADVERBS** (following the verb) to describe to what extent (*how much*) the verb of change happened.

1. Complete the sentences below by filling in the correct adverb or adjective - look at the arrows to guide you.

 rapidly dramatically sharply 	 steadily gradually moderately 	slightly  
--	---	--

	Al Ain's population rose _____ to 400,000 people by 2008.
	The number of people living in rural areas of China decreased _____.
	By 2008, the population of Dubai climbed _____ to 1.4 million people.

2. We use **ADJECTIVES** (before the noun) to describe to what extent (*how much*) the related nouns happened.

 a rapid a dramatic a sharp 	 a steady a gradual a moderate 	a slight  
--	---	--

	There was a _____ rise in Al Ain's population to 400,000 people by 2008.
	There was a _____ decrease in the number of people living in rural areas of China.
	By 2008, there was a _____ climb in the population of Dubai to 1.4 million people.

# TYPES OF SENTENCES

You have the choice of two basic sentence structures to write about information in a chart or graph.

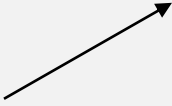

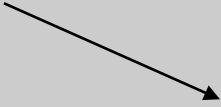

## 1. Sentences using verbs of change

Sales increased slightly, to eight thousand dirhams in September.  
*subject + verb + adverb + other important details*

## 2. Sentences using nouns of change (noun verbs)

There was a slight increase in sales, to 8,000 dirhams in September.  
*be + art.+ adj. +noun + subject + other important details*  
*verb*

Practice changing these verbs of change and adverbs into adjectives and related nouns.

	Verbs of change/ adverbs	Adjectives/ Related nouns
	<ul style="list-style-type: none"> <li>▪ rose dramatically to</li> <li>▪ increased steadily to</li> <li>▪ climbed gradually to</li> </ul>	<ul style="list-style-type: none"> <li>▪ _____</li> <li>▪ _____</li> <li>▪ _____</li> </ul>
	<ul style="list-style-type: none"> <li>▪ _____</li> <li>▪ _____</li> <li>▪ _____</li> <li>▪ _____</li> <li>▪ _____</li> </ul>	<ul style="list-style-type: none"> <li>▪ there was a sharp fall to</li> <li>▪ there was a dramatic decline</li> <li>▪ there was a slight decrease</li> <li>▪ there was a sudden drop</li> <li>▪ there was a steady reduction</li> </ul>
	<ul style="list-style-type: none"> <li>▪ fluctuated (upwards)</li> <li>▪ fluctuated (downwards)</li> </ul>	<ul style="list-style-type: none"> <li>▪ _____</li> <li>▪ _____</li> </ul>
	<ul style="list-style-type: none"> <li>▪ _____</li> <li>▪ _____</li> </ul>	<ul style="list-style-type: none"> <li>▪ there was a leveling out at</li> <li>▪ there was no change</li> </ul>
	<ul style="list-style-type: none"> <li>▪ _____</li> </ul>	<ul style="list-style-type: none"> <li>▪ there was a peak</li> </ul>

Listen and draw the line for each chart:

**Graph A – Number of cars**

**Graph B – Number of cars**

**Graph C – Number of cars**

**Graph D – Number of cars**

**Graph E – Number of cars**

**Graph F – Number of cars**

**Graph G – Number of cars**

**Graph H – Number of cars**

**Listen to the sentences again and fill in the missing words:**

**Graph A**

In 1970, the number of cars \_\_\_\_\_ 5. After that, the number \_\_\_\_\_  
\_\_\_\_\_ 50 in 1990. Finally, it \_\_\_\_\_ 40 in 2000.

**Graph B**

In 1970, the number of cars \_\_\_\_\_ 20. Then, from 1970 to 1980, it \_\_\_\_\_  
\_\_\_\_\_ 40. In 1990, the number of cars \_\_\_\_\_ 30. After that, in 2000, the number  
\_\_\_\_\_ back to 40.

**Graph C**

In 1970, the number of cars \_\_\_\_\_ 60. From 1970 to 2000, there was a \_\_\_\_\_  
\_\_\_\_\_ 10.

**Graph D**

The number of cars \_\_\_\_\_ 20 in 1970. Then, there was an \_\_\_\_\_  
\_\_\_\_\_ 50 in 1990. From 1990 to 2000, the number of cars \_\_\_\_\_ 50 to 40.

**Graph E**

The number of cars \_\_\_\_\_ 10 in 1970. From 1970 to 1980, it \_\_\_\_\_ and  
\_\_\_\_\_ 60 in 1990. In 2000, the number of cars \_\_\_\_\_ 30.

**Graph F**

In 1970, the number of cars \_\_\_\_\_ 40. The number \_\_\_\_\_ 60  
between 1980 and 1990. Finally, the number in 2000 \_\_\_\_\_ 20.

**Graph G**

The number of cars \_\_\_\_\_ 60 in 1970. Then, there was a \_\_\_\_\_ in the number of  
cars to 40 in 1980. This figure \_\_\_\_\_ 40 for the next 20 years.

**Graph H**

The number of cars \_\_\_\_\_ 10 in 1970. Then, from 1980, it \_\_\_\_\_ for  
the next 10 years at 30. It then \_\_\_\_\_ 60 in 2000.
